

# 2-PIN PLUG

(Art.918)

## 2-PIN PLUG COMPLETE for foil/sabre body cord

No other plug is so simple to assemble or to change in a body cord.  
There is only one screw.

No small parts can be lost.

- A "hook stop" avoids the bending of the hook.
- A "finger holder" helps to remove the plug, especially for young students, avoiding pulling of the cable.
