

PLAY20 (Art.320, Art.320T)

Electronic scoreboard for bowls and other sports

- **Art.320 - PLAY20** One-side display. Wall fastening.
- **Art.320T - PLAY20** with infrared telecontrol.

FEATURES

- 20cm-high figures, readable from 50m away. The different colour of the two numbering devices (red and green) makes it easier to recognise one's score.
- It is supplied with a keyboard already connected by means of 30m-long cable. The cable can be extended very easily because it only has 2 conductors.
- The **keyboard** is extremely sturdy, with membrane-type keys (5 million operations), in red and green like the corresponding displays. Mistakes in score-taking, which can occur if the keyboard is not placed in front of the scoreboard, are thus avoided. It can be connected to a second keyboard (Art.324) to control the scoreboard from 2 positions.
- The following operations can be carried out from the keyboard: turn on and off the scoreboard, zero, increase or decrease single numbering devices. The score is up to 99. It is supplied with cable and supply plug.

PLAY20 with infrared telecontrol (Art.320T)

- **Telecontrol** range: 25-35m.
- An innovative system allows more than one remote control to be used in the same room without the need for setting any code.
- Sturdy small alluminum box: 11 x 4.8 x 2.2 cm.
- Flat keyboard which does not get ruined by dirt or liquids.

OPTIONALS

- **Art.324** additional KEYBOARD
