

FS scoreboards series upgrade kit to the FIBA 2020 rules

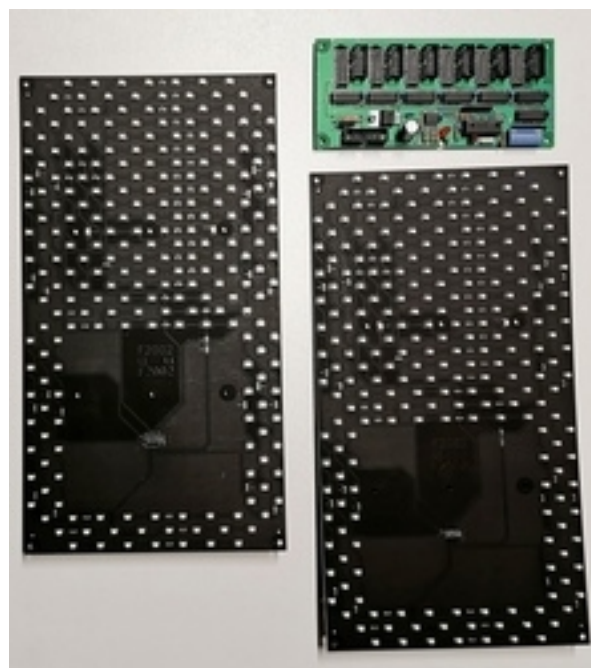

(Art.265-30)

FS scoreboards series upgrade kit to the FIBA 2020 rules

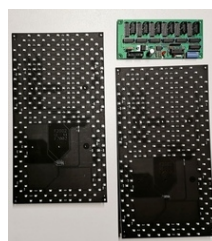

The 265-30 FS scoreboards series upgrade kit to the FIBA 2020 rules make it possible to update the FS scoreboards series to the new FIBA 2020 regulations, mandatory for both level 1 and 2 sports halls.

The upgrade kit consists of an electronic control unit and a pair of LED display boards, which display both the amount of team fouls and a red square when reaching the fourth foul as required by the new FIBA 2020 regulation.

The update procedure is simple and it can be performed by an electrician on its own following the proper instructions.
