

KIT24s (Art. 270)

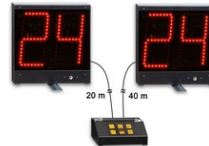

Basketball 24 seconds shot clock

The **KIT24s** system has been designed to visualise the ball possession time and time-out in basketball. The regulations in force provide for these times to be of 24/14 and 60 seconds respectively.

It consists of a console with a keyboard and two display panels.

FEATURES

- **20-cm-high** figures in red. Visibility: 70m.
- Handling of the 14 seconds rule, as per the latest FIBA regulations.
- Green light on display indicating the time count in action.
- End of time period buzzer on each display. Sound intensity 105db-30cm., suitable for low-noise venues.
- Possibility of modifying ball possession time and time-out from **1 to 99 seconds**.
- Two display connecting cables are supplied: 1 x 20m + 1 x 40m.
- Various cable extension lengths available on request.
- Possibility of adding two more display panels (Art.273).
- **Power supply:** depending on version, 230Vac or 115Vac, 35VA MAX.
- **Size:** 2pz 29,2x30,4x4,4cm +1pz 20x8x12,5cm.
- **Weight:** 8.9kg.
