FS scoreboards series upgrade module to the FIBA 2020 rules

FS scoreboards series upgrade module to the FIBA 2020 rules

The 265-40 FIBA2020 Update Module FS Series Scoreboards rules make it possible to update the FS scoreboards series to the new FIBA 2020 regulations, mandatory for both level 1 and 2 sports halls.

The upgrade kit consists of the complete module including LED boards, which display both the amount of team fouls and a red square when reaching the fourth foul as required by the new FIBA 2020 regulation.

The update procedure is simple and it can be performed by an electrician on its own following the proper instructions.
