MINI-02 (Art.896-2)

Miniaturized wrist device for foil.

MINI-02 is worn on the fencer's wrist by means of the practical Velcro® wristband.
Since there are different types of connection to the foil guard, MINI-02 is supplied with cable but no connector. The suitable connector will therefore have to be fastened to one's foil.
MINI-02 signals each time the foil tip is pressed. Valid points are not therefore distinguished from invalid ones, and neither the points on the piste nor the ones on the adversary's guard are disabled.
It is ideal for training as there is no need for wire spools, pistes, cables or signalling equipment.

Main features:

- Low cost.
- Extremely small dimensions: 4 x 5 x 2cm. Weight: 69g.
- Both acoustic (buzzer) and visual (led) point contact signalling.
  The signal stays on for approx. 1 second.
- Sturdy metal container.
- 12V battery included (common radio control battery, type A23 or VR22).
  Battery life is approx. 5,000 points!
- Contact time of the point complies with F.I.E. rules.

Art.896-2
MINI-02 wrist-minirecorder for foil, without plug
The battery is included
Size: 4x5x2cm. - Weight: 0.069kg.

Art.876
12V alkaline BATTERY (A23, VR22 type)
Spare part
Weight: 0.01kg.
